**Cost:** FREE

\*please bring a lunch\*

Project WILD is an award-winning environmental and conservation education program. The goal of Project WILD is to help develop awareness, knowledge, skills, and commitment that will lead to informed decisions, responsible behavior, and constructive actions concerning wildlife and the environment. It is based around a curriculum guide for K-12 full of 122 interdisciplinary activities in lesson-plan style. The activities are all cross-referenced to grade, subject, topic, skill, and length, and include subjects from science and language arts to math and music.

The guide is only distributed through the workshops, so come for a fun half-day and receive this great educational resource!

For more information or to register for this workshop please contact Mila Dunbar-Irwin at [programs@tahoerimtrail.org](mailto:programs@tahoerimtrail.org) or 775-298-0012.
